

Urban Stormwater Management VEGETATED ROOF

WHAT IS IT?

Vegetation (Sedum or other)
Growth media
Stormwater storage media
Waterproofing membrane
Extensive: 2" - 3" deep
Intensive: deeper soil/garden

BENEFITS:

Low maintenance
Reduce peak runoff rate
Reduce runoff volume
Extend & filter runoff
Habitat restoration
Reduce NPS pollution
Reduce heat island effects
Increase energy efficiency

APPLICATIONS:

Urban, Suburban
Rural, Residential
Commercial, Institutional
Industrial
Canopy
